

# „A SECURE FUTURE – SECURITY WITH A FUTURE”

# **“SAFETY AND SECURITY OF WATERWAY EXPERT GROUP” – SAFETY EG –**

## **KICK-OFF CONFERENCE**

**17-19 September 2013,  
Budapest-Mohács**

**Sándor KOZMA Lt. colonel  
Head of Department  
Ministry of Interior – National Directorate  
General for Disaster Management,  
Department for Dangerous Goods  
Transport**

## **Aim of Expert Group (subgroup for safety transporting of the dangerous goods on waterway)**

To support the work of the enforcement bodies with extensive analysis on the risks and know-how of the transport of dangerous goods on the Danube. To help the harmonization of the national interests and national responsibilities regarding the dangerous goods transport on waterways.

We expect to have delegates sent to the working groups with knowledge of waterways dangerous goods transport.

## Topics

- To find the bodies and authorities dealing with dangerous goods transport within the Danube Region countries.
- Cooperation in order to get familiar with the regulations and directives of the Danube Region countries on dangerous goods transport.
- Revealing the weaknesses and strengths of dangerous goods transport, recommendations for improvements regarding the weaknesses.

## Topics

- Surveying the possibilities for information and data exchange on the control of dangerous goods transport among the countries of the Danube Region, working out solutions for the problems revealed together with the Danube Region countries.
- Harmonization of the specifications described in the regulations of the Member States regarding the transport of dangerous goods, recommendations on the unified control system.

## Topics

- Surveying the possibilities of the application of new, modern technical equipments, solutions, information systems and technologies for the disaster management in order to help the work of the countries within the Danube Region (e.g. radiation detectors, onboard radiation detections systems, radar-thermo camera- infra surveillance systems, special ships and shipping equipments, quick tests for chemical analyses)

## Topics

- Setting the recommendations about the application of the best practices regarding dangerous goods transport by inland water.
