

"A SECURE FUTURE — SECURITY WITH A FUTURE"

"LAW ENFORCEMENT CONTROL EXPERT GROUP

- CONTROL EG -

Border management and customs control

KICK-OFF CONFERENCE

17-19 September 2013, Budapest-Mohács

Lt. colonel Ákos Czuczor
National Tax and Customs Administration
General Directorate of Deployment
dep. general director

Aim of Expert Group

To evolve an unified control method, that corresponds to the safety and speedy requirements during the border- and long-range inspections and to create a joint database as well that effectively supports the law enforcement control.

- •To collect data concerning passengers and staff of waterway traffic for the purpose of risk analysis
- •To prepare recommendations for a more effective border control via the better co-ordination between

the relevant authorities

■To promote the mutual information on documents required in passenger and freight shipping as well for

crossing the borders

•To prepare recommendations for searching of hiding places on various types of ships

To elaborate
 a possible common database on documents

•Gives proposes for the conditions of using unified documents (book of stocks, logbooks, machine log, fuel and water resource inventory, environmental log)

•It proposes that the set of declarations should be required at the beginning of the inspection: control of tax-free fuel use (additional findings).
