

„A SECURE FUTURE – SECURITY WITH A FUTURE”

“NATIONAL SUGGESTIONS TO THE NEXT JOINT OPERATION – REPUBLIC OF SERBIA”

PARALLEL THEMATIC WORKSHOPS OPERATIONS EG

**09.00 -12.30
14th May, 2014
Budapest**

Sinisa Dostic
**Ministry of Interior Republic of
Serbia**
**Advisor for Scientific Research
and Publishing**
**Directorate for Police
Education, Training,
Professional Development
and Science**

Experience from the first Joint Operation

- The first joint operation was well organized.
- The operation was functionally, financially and logistically properly supported by the Ministry of Interior of Hungary (unrestricted internet access, adequate facilities and conditions for work and accommodation, transportation to hotels, meals, etc.)
- The activities within the operations in the Republic of Serbia were carried out at border crossings called “Bezdan”, and “Novi Sad”, by the joint engagement of competent government departments (Ministry of Interior of Republic of Serbia - border police, Customs and Harbor).

Experience from the first Joint Operation

- During the first joint operation:

- 1) intensive exchange of experience and knowledge of common interest were carried out,
- 2) the duties and obligations were fulfilled professionally and properly, and
- 3) for all sent requests, adequate usable and useful information were provided.

National suggestions to the next Joint Operation

- Recommendations for the next joint operation are:

1) to consider the extension of working hours at contact center in Mohacs, because the requests for verification were sent after the working hours.

2) to focus further activities on combating illegal activities, according to which a form for reporting was made: illegal migration, smuggling, counterfeit documents, pursuit activity, etc.
